“The Essential English class with Douglas's was phenomenal! The amount of clarity Douglas could bring to each grammar confusion was amazing.

I'm not a morning person, but this class kept me awake, especially surprising if one knew that the second hour was completely focusing on grammar correction. I'm very impressed.

Mei Kuo, (Taiwanese agent)

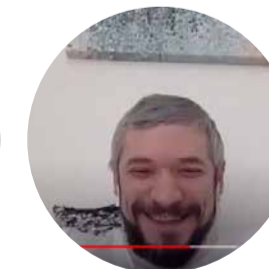

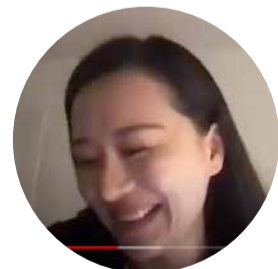

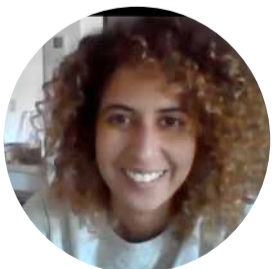

“The ML activities keep me connected with my teachers and classmates, as well as continue to improve my English skills.

It is great to have the chance to interact with my ML friends and still feel the same environment that we normally have in our face to face classes.

Our laughs and learning have made my days lighter and happier.

Juliano (Brazil)

“The class was a lot better than I expected. The quality was good, no delays at all.

The platform works very well. The teachers are doing an excellent job. I have not complaints.

Writing, Reading, and speaking tasks have the same quality as in class gave at school.
